Sonoma K. Miller

Vancouver, BC • sonomamiller00@gmail.com • linkedin.com/in/sonoma-miller/

EDUCATION

Bachelor of Science in Informatics - Data Science **Seattle, WA**
University of Washington *September 2022 - March 2026*

- 3.6 Cumulative GPA
- Study Abroad: Travel Writing in Rome, Italy - Autumn 2022
- Published "Airbnbs Near Our National Parks: Trash or Treasure?" in *The Economizer* - Spring 2024

Relevant Coursework: Data Science and Analysis, Interactive Information Visualization, Computer & Data Programming, Statistics, Databases & Data Modeling, Product and Information Systems Management, Web Development, Cooperative Software Development, Design Methods, Research Methods.

WORK EXPERIENCE

Data Scientist **Vancouver, BC**
Rivian and VW Group Technologies *July 2026 - Present*

- Core Data - Decision Science team
- Partnering with stakeholders to identify opportunities where data and modeling can drive better decisions.
- Designing, building, and maintaining scalable ELT pipelines and workflows that transform raw data into actionable insights using Python, SQL, and dbt.

Software Engineering Intern - Data Science and Analytics **Palo Alto, CA**
Rivian and VW Group Technologies *June 2025 - September 2025*

- Led data migration efforts for a legacy SQL catalog by performing exploratory data analysis in Python on live Rivian data, resulting in the deprecation of 2,760 tables and 44 schemas, and the preparation of 18,000+ tables for migration based on usage statistics.
- Created 10 executive-facing Databricks and Hex dashboards and 3 models with dbt to support the Big Data and AI team in transforming, cataloging, governing, and enabling data in the company ecosystem.

Data Programming Teaching Assistant **Seattle, WA**
Paul G. Allen School of Computer Science & Engineering *December 2024 - December 2025*

- Guided 285 students in mastering Python programming and core data science concepts.
- Collaborated with professors and a community of TAs to design 10 weeks of curriculum covering data structures, visualization, and machine learning concepts for the data programming class.

Research Assistant, Project Lead **Seattle, WA**
Paul G. Allen School of Computer Science & Engineering *September 2024 - December 2024*

- Contributed to Jupyter notebooks and lecture content using sonification and the Python library matplotalt in order to improve computing accessibility education by visualizing graphs with sound and alt text.

UI/UX Design Research Assistant **Seattle, WA**
University of Washington *October 2023 - December 2024*

- Used Figma to lead wireframing and prototyping design for a psychological study focused on analyzing decision-making processes during drinking.
- Transformed collected data into 8 actionable alcohol intervention modules distributed to participants.

LEADERSHIP & INVOLVEMENT

Data Entry, *Felidae Conservation Fund* **March 2024 - April 2025**

- Entered wildlife conservation data and annotated over 800 images for analysis, aiding in the refinement of machine learning algorithms aimed at enhancing wildlife conservation strategies.

SKILLS AND CERTIFICATIONS

Languages: Python (Pandas, Matplotlib, Seaborn, Plotly, Scikit-learn), SQL, R, HTML, CSS, JavaScript.
Tools & Technologies: Git, Databricks, Hex, Jupyter, Tableau, Figma, Azure DevOps, Jira, Excel.
